Curbside Leaf Collection Program

**Intent:** To provide a free service paid through the pay-per-bag program to residents of Douglass Township, Montgomery County to collect leaves curbside.

**Program Description:** Douglass Township, Montgomery County offers a curbside leaf collection program paid through revenue of the pay-per-bag program. Leaves will be collected throughout the township starting on the third Monday in October and ending on the first Friday in December. The leaf truck and vaccum will travel each road in the township one time per week. In the event that a spring leaf cleanup is necessary, leaves will be collected starting on the second Monday in April, and ending on the last Friday in April. Leaves shall be placed curbside the night before your scheduled pickup date. Grass clippings, brush, or any other kind of yard waste will not be collected during leaf collection. Leaves placed further than 5 feet from the curbline will not be collected. Residents shall be reminded that vehicles should not be parked in, on, or near leaf piles because it makes it difficult for our trucks to collect your leaves. Do not place leaves in front of mail boxes, telephone poles, or street signs. Township staff asks that your pile be no more than 2 feet high, and 3 feet wide, and can be as long as it needs to be. Larger piles will clog our vaccum and take township staff longer to complete their designated routes for the day. Please keep leaves away from storm drains and intersections for public safety.

**Equipment Provided:** Douglass Township, Montgomery County will provide a truck, leaf vaccum, and three Douglass Township personnel to remove leaves from the curb of your property in a neat and orderly process.
