

New Connection Portal

Homeowners and business owners can now inquire about NEW water and wastewater CONNECTIONS and submit an application for service through Aqua Pennsylvania's "New Connection Portal." With just a few clicks and some basic information, prospective customers can create an account and start the process through this one-stop site.

With a New Connection Portal Account, you will be able to:

- Submit inquiries to learn if Aqua Pennsylvania can provide NEW water or wastewater service for your home, business or land development project (including fire suppression).

Submit applications for service once Aqua Pennsylvania

- confirms service is available (typically provided within 15 business days).

Track the status of your inquiries and applications once

- submitted.
